

It started with Santa and a dream . . .

Our Vision

Through dedication and commitment to the betterment of the next generation, we can make a difference when we believe that every little life matters.

. . . it continues with ELLM

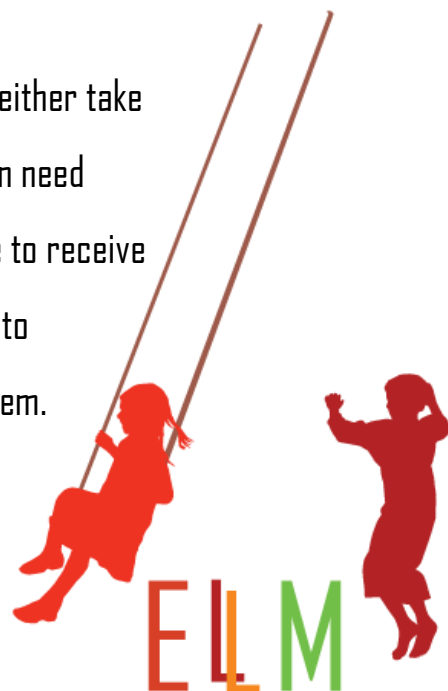

Our Mission

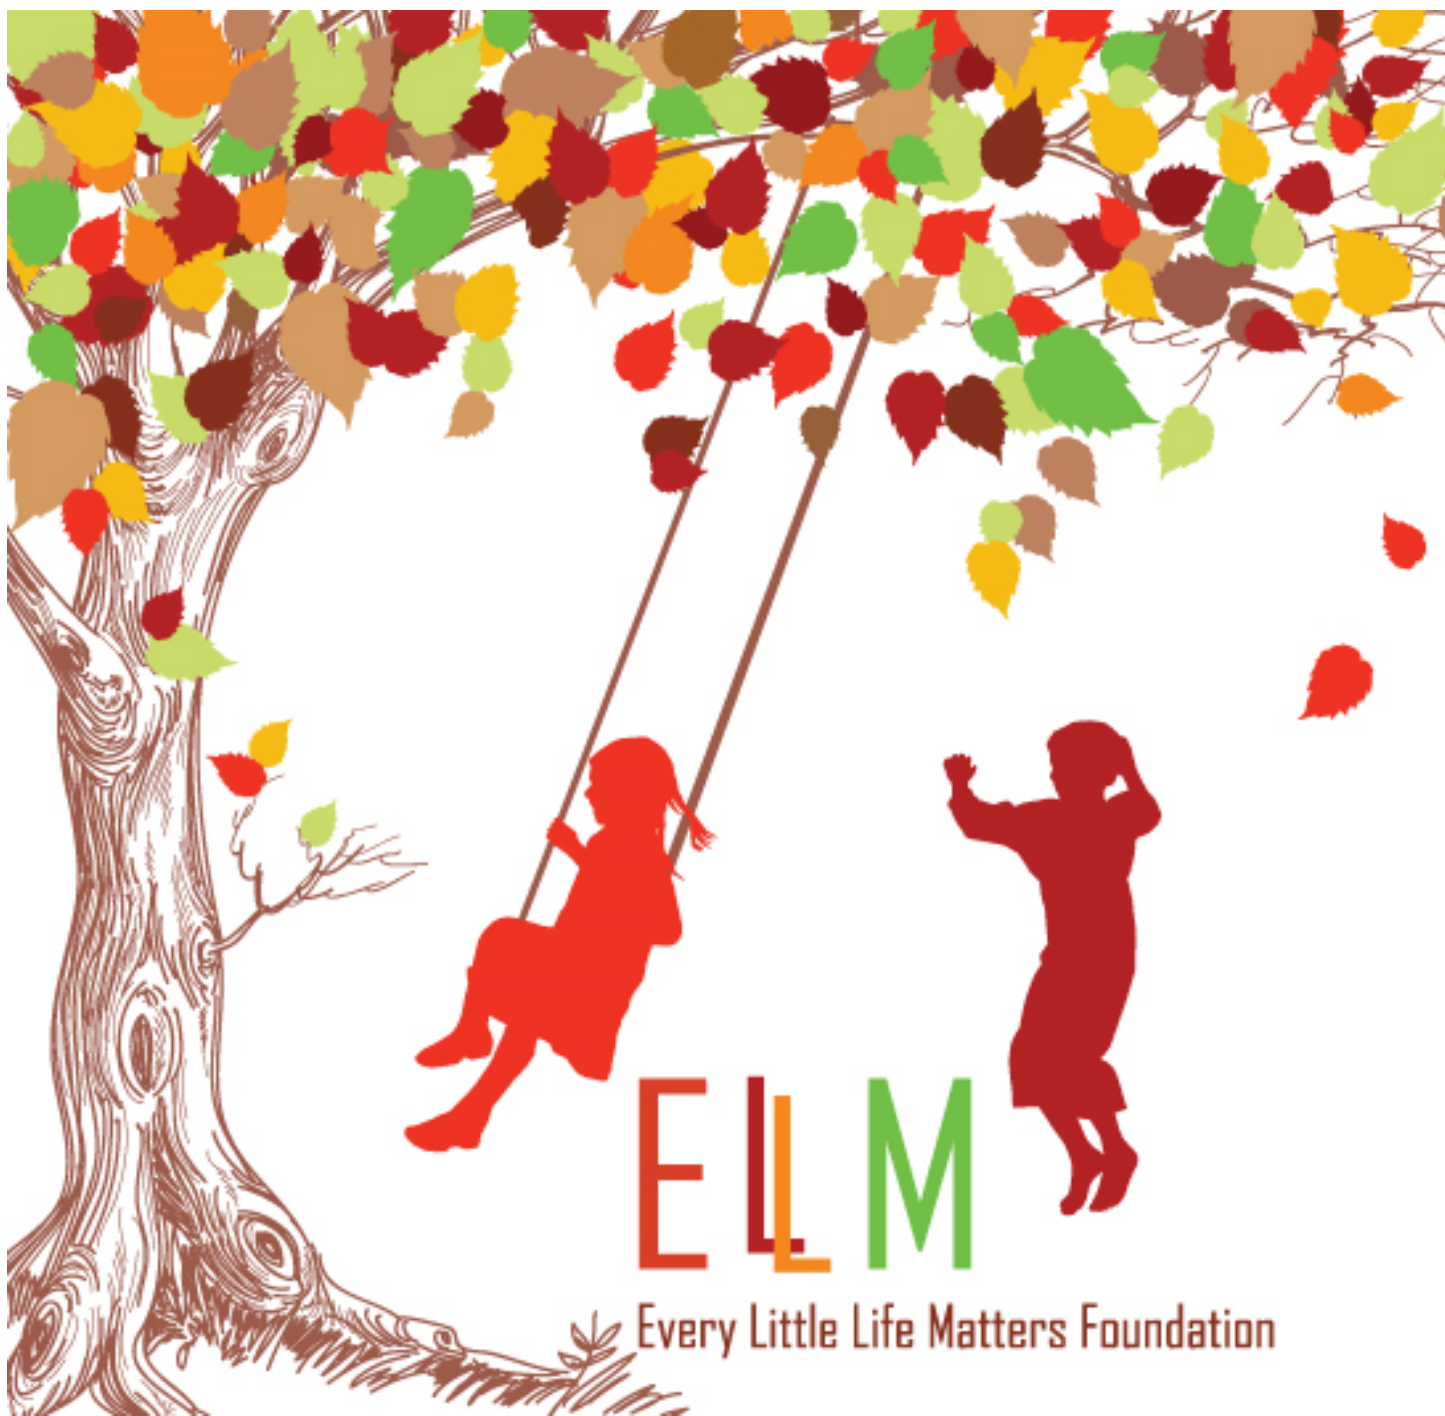

Every veteran and child deserves to live a life where their passions and dreams of a future can be fulfilled through a better education, a dedicated community and commitment from those who can provide support and make a difference wherever and whenever possible.

Our Purpose

The veterans and children of our communities, who are unable to either take care of themselves or their families, need our assistance. Children need supplies for school, veterans, who fought to keep us free, deserve to receive that which they are entitled to thrive and we believe it is our duty to provide encouragement to let them know someone cares about them.

Because every little life matters.

The Every Little Life Matters Foundation was formed by a group of dedicated and committed people who believe that, when a veteran returns home or a child is born into this world, no matter what their situation, they deserve a chance to fulfill their life's purpose. We believe that a hand up, not a hand out, is what will inspire our veterans and children into becoming participating, contributing and caring members of our society.
